

## Wine Talk: February 2011

The newsletter of Terroir Wines: Edition 18

# Thierry Michon Events

### Dear Subscriber,

Just a reminder that Thierry Michon, from Domaine Saint Nicolas, is visiting Australia for Return to Terroir in Melbourne on 14 and 15 March. If you're going to be in **Melbourne** for Return to Terroir please call in to Thierry's stand and say hello.

In association with that, we have two special events:

- \* a dinner with Thierry in **Sydney** at Fix St James on Wednesday 16 March.
- \* a lunch with Thierry in **Hobart** at Garagistes on Sunday 13 March.

Domaine Saint Nicolas is on the Atlantic coast of France, south of Muscadet, in the Fiefs Vendéens appellation. The domaine's vineyards have been biodynamic since 1993 and Thierry is firmly of the view that his wines are made in the vineyard not the winery.

He grows a variety of grapes. Some, like Pinot Noir and Chardonnay, are well known here. Others, like Gamay, Chenin Blanc and Cabernet Franc, all darlings of the Loire, are familiar too, but Groslot Gris and Negrette may be new to many Australian wine drinkers.

Thierry is very entertaining and also passionate and committed, so the Fix St James and Garagistes meals promise to be special events. If you want to learn more about him, these two short videos provide an excellent background.
